**Notes:**

- RB2-RL1 survival craft internal light and variant specified on Page 1 of this certificate incorporate a test facility and may be supplied for fitting to liferafts, lifeboats and rescue boats.
- The battery/light unit must be replaced on or before the expiry date marked on its labels.
- Maximum stowage height = 36 metres

**CONDITIONS OF CERTIFICATION**

- Detailed fitting, operation and disposal instructions are to be provided to each purchaser of the subject lights.
- If the specified standards are amended during the validity of this certificate, this product type is to be re-approved prior to it being supplied to vessels to which the amended standards apply.
- Production items are to be manufactured in accordance with either an approved Production Quality Assurance system (Module D), or Product Quality Assurance (Module E), or Product Verification (Module F) of the Marine Equipment Directive.
- Production tests are to be conducted to ensure compliance with SOLAS Chapter III Regulation 5 and recorded by the manufacturer in accordance with either the approved Production Quality Assurance system (Module D), or Product Quality Assurance (Module E), or witnessed by the Notified Body (LRV) as required by the Product Verification (Module F) of the Marine Equipment Directive. This does not preclude any further testing to additional requirements of the Marine Administration of the country where the ship is registered (i.e. the flag state) or those acting on behalf of that Administration.
